

As soon as I heard about the DO NOT Call list I was on line signing up all my phones. It has been such a relief not getting these annoying sales calls. If I need a product or service, I'm smart enough to find the vendor I need. I hate getting sales calls, they are way to pushy and I just have to be rude and hang up. PLEASE PLEASE PLEASE.... do no do away with this list. The fact that so many have signed up should tell you something.
